PROFILE

A tech enthusiast with a strong foundation in MERN full-stack web development. I'm a hardworking, dedicated and quick learner, eager to contribute to innovative web projects and continuously learn cutting-edge technologies. Let's connect and discuss how I can be a valuable addition to your tech team.

EDUCATION

Bachelor of Computer Science, Punjab Technical University.

2020 - 2024

TECHNICAL SKILLS

- **Frontend:** HTML/CSS, Tailwind CSS, Bootstrap, JavaScript(ES6+), React.JS.
- **Backend:** Node.JS, Express.JS.
- **Database:** MongoDB.
- **Dev Tools:** VSCode, Git, GitHub, Postman.

EXPERIENCE

SDE Intern

Dec 2021 - Feb 2022

JugaadHai.in

Mumbai, India

- Designing new pages as per the mockups.
- Consuming APIs and implementing the functionality according to the API contract.
- Writing scalable and maintainable code according to the sprints (planned tasks).

SDE Intern

Aug 2024 - Jan 2025

Apana Time Tech Solutions

UP, India

- Assisted in developing responsive web pages using HTML, CSS, JavaScript, and Tailwind CSS.
- Collaborated with front-end and back-end developers to integrate APIs and UI components.
- Contributed to React.Js components and improved site interactivity and performance.

PROJECTS

Vegan-food

- Developed a full-stack vegan food ordering app using React.Js and CSS for a responsive frontend.
- Implemented Node.Js and Express.Js backend to handle API requests and user authentication.
- Integrated MongoDB for storing user profiles, food items, and order history.
- Enabled secure online payments using the Stripe API.
- Built dynamic UI components for product listing, cart, and checkout flow.
- Applied RESTful API architecture for efficient communication between client and server.

Personal Portfolio

- Designed and developed a responsive personal portfolio using React.Js and CSS.
- Showcased web development projects, technical skills, and contact information.
- Implemented smooth scroll, interactive UI components, and section-based navigation.
- Optimized layout for mobile-first design and cross-browser compatibility.

Weather application

- Developed a weather application using React.Js and Tailwind CSS for a clean, responsive UI.
- Fetched real-time weather data from the OpenWeather API based on user input.
- Implemented search functionality to display current temperature, weather conditions, and icons.

News portal

- Built a dynamic news application using React.Js and Tailwind CSS for a responsive UI.
- Integrated the NewsAPI to fetch and display real-time news headlines and articles.
- Implemented features like category filtering(e.g., sports, technology, health), search, and article previews.

To-Do List

- Developed a simple and functional To-Do List app using React.Js and Bootstrap.
- Enabled users to add, edit, delete, and mark tasks as completed.
- Used local state and optionally localStorage for task persistence.

ACCOMPLISHMENTS

- Completed 6-month internship project training on the MERN stack at Ducat - [Ducat](#)
- Complete Javascript with HTML5 and CSS3 - [Udemy](#)
- Web Development Masterclass - [Udemy](#)

ACHIEVEMENTS

- 1st position in Hackathon organized by college.
- Got an online 3 month summer training Certificate in MERN Stack development provided by ThinkNext.
