EDUCATION

I. K. Gujral Punjab Technical University
Bachelor of Technology

2020 - 2024
CGPA- 7.6

TECHNICAL SKILLS

Languages	HTML, CSS, JavaScript (ES6+), TypeScript
Technologies/Frameworks	React.js, Next.js, Node.js, Express.js, REST APIs, Redux Toolkit, Tailwind CSS, Socket.IO, Razorpay, Stripe, JWT, Multer, Vercel, Render
Databases	MongoDB/Mongoose, Redis
Developer Tools	VS Code, Git, GitHub, Postman, CI/CD

EXPERIENCE

Software Developer Jan 2025 - Present
Dream Viewer Infotech Noida, Delhi, IN

- Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Next.js, Node.js), building scalable and reusable application features.
- Designed and integrated RESTful APIs using Node.js and Express.js, implementing authentication, CRUD operations, validation, middleware, and business logic.
- Designed and managed MongoDB databases using Mongoose and integrated frontend applications with backend services using Axios and React Hooks.
- Built responsive and user-friendly interfaces using React.js, Next.js and Tailwind CSS, following reusable component and modern UI/UX practices.
- Managed application development and deployment workflows using Git/GitHub, PM2, and server environments, including debugging, performance optimization, and production maintenance.

Web Developer Intern Aug 2024 - Jan 2025
Apana Time Tech Solutions.in Gorakhpur, UP, IN

- Assisted in developing responsive web pages using HTML, CSS, JavaScript, and Tailwind CSS.
- Collaborated with front-end and back-end developers to integrate APIs and UI components.
- Contributed to React.Js components and improved site interactivity and performance

SDE Intern Dec 2021 - Feb 2022
JugaadHai.in Mumbai, IN

- Designing new pages as per the mockups.
- Consuming APIs and implementing the functionality according to the API contract.
- Writing scalable and maintainable code according to the sprints (planned tasks).
- Diagnosing issues by debugging the code.

PROJECTS

TTPLINX – Construction Management ERP. Developed a full-stack, multi-tenant Construction ERP platform that centralizes project execution, procurement, workforce operations, inventory, finance, and stakeholder collaboration. Built role-based dashboards and secure portals for administrators, employees, clients, vendors, and subcontractors, with workflows for BOQ management, tenders/RFQs, purchase orders, attendance, payroll, approvals, invoicing, quality audits, and HSE compliance. ([Try it here](#))

TTFIXON - Home Services Platform. Built TTFIXON, a full-stack on-demand home-services platform with customer, professional, and admin portals. Implemented real-time booking and job tracking, OTP verification, wallet and Razorpay payments, geolocation-based service zones, dynamic pricing/discounts, provider payouts, and analytics using Next.js, Node.js, Express, MongoDB, Redux Toolkit, and Socket.IO. ([Try it here](#))

Dreamviewer 360 - HRMS platform. Developed Dreamviewer360, a full-stack ERP/HRMS application for managing multi-organization workforce operations, including employee onboarding, role-based access control, GPS/face/biometric attendance, leave and overtime workflows, automated payroll, salary slips, task sheets, and HR documentation. Built responsive dashboards with real-time chat, notifications, calendar reminders, file management, and project/unit/ department-wise reporting. ([Try it here](#))

NeoTreasure. Developed NeoTreasure, a MERN/Web3 NFT marketplace with USDT wallet integration, NFT minting/trading, real-time Socket.IO games, referral rewards, reserve trading, and role-based admin management using React, Node.js, MongoDB, Ethers.js, Solidity, and IPFS. ([Try it here](#))

Tech-Tutorials. Tech-Tutorials is a full-stack learning platform built with React, Tailwind CSS, Node.js, Express.js, and MongoDB. It allows users to explore and read various technical subjects organized module-wise, making learning structured and easy to follow. ([Try it here](#))

Vegan-food. Vegan Food is a full-stack e-commerce web application designed for users to browse and purchase organic vegan products online. The frontend was developed using React.js and CSS to ensure a clean and responsive user interface. The backend, built with Node.js, Express.js, and MongoDB, manages product data, user information, and order processing. It also features Stripe integration for secure online payments. ([Try it here](#))

ACCOMPLISHMENTS

- Completed 6-month MERN Stack internship project training at Ducat, focusing on full-stack web development using MongoDB, Express.js, React.js, and Node.js. ([View Certificate](#))
- Completed "Web Development Masterclass" course on Udemy. ([View Certificate](#))
- Completed "Complete JavaScript with HTML5 and CSS3" course on Udemy. ([View Certificate](#))

ACHIEVEMENTS

- Employee of the Month – May 2026, recognized for outstanding performance, dedication, and valuable contributions to the team.
- Secured 1st position in college-organized Hackathon.
- Earned a 3-month MERN Stack development certificate through ThinkNext's online summer training program.
